Subject: Please Approve Revolution Wind!

Dead Council Members and Staff:

I'm writing today to urge you to approve the application for the Revolution Wind project which was on last night's meeting agenda. This is an important project that will help provide Rhode Island with reliable, clean power. The project is a key part of meeting the state's climate goals and is especially helpful to Rhode Islanders given the high cost of electricity in New England.

I appreciate your service to the state, and the time you're taking to hear from all interested parties. I hope at the end of the day you vote to approve the Revolution Wind project, and other offshore wind projects.

Many thanks,

Derek Torrey
Providence, RI
